ПРИЛОЖЕНИЕ 2

ПЕРЕЧЕНЬ ОСОБЫХ КРИТЕРИЕВ ОПРЕДЕЛЕНИЯ ПРОИСХОЖДЕНИЯ ТОВАРОВ

Общие примечания

Для целей настоящего Приложения:

1. Первый столбец перечня содержит группы, товарные позиции или субпозиции, второй столбец содержит описание товаров. Товары в настоящем перечне определяются исключительно кодом товара по ГС. Описание товара приведено только для удобства пользования.

   В случае если коду товара по ГС в первом столбце перечня предшествует предлог «из», это указывает на то, что критерий определения происхождения товаров, указанный в третьем столбце, применяется только к части соответствующей субпозиции, товарной позиции или группы, поименованной в столбце втором. В этом случае следует руководствоваться как кодом товара по ГС, так и наименованием товара.

2. **«Группа»** означает группу ГС (2 знака);

   «Товарная позиция» означает товарную позицию ГС (4 знака);

   «Субпозиция» означает субпозицию ГС (6 знаков);

   «СТС» означает изменение товарной классификации на 2-, 4-, или 6-значном уровне ГС (СС, СТН, CTSH);

   «СС» означает, что все непроисходящие материалы, используемые в производстве конечного товара, должны претерпеть изменение в товарной классификации на 2-значном уровне ГС (изменение группы);

   «СТН» означает, что все непроисходящие материалы, используемые в производстве конечного товара, должны претерпеть изменение в товарной классификации на 4-значном уровне ГС (изменение товарной позиции);

   «CTSH» означает, что все непроисходящие материалы, используемые в производстве конечного товара, должны претерпеть изменение в товарной классификации на 6-значном уровне ГС (изменение субпозиции);

   «QVC [...] %» означает, что достигнутая в процессе производства конечного товара доля добавленной стоимости, рассчитанная

в соответствии с формулой, установленной в Статье 3.5 (Расчет доли добавленной стоимости), должна составлять не менее […] процентов;

«CTC или QVC [...]%» означает требование по изменению товарной классификации или достижение в процессе производства конечного товара доли добавленной стоимости, рассчитанной в соответствии с формулой, установленной в Статье 3.5 (Расчет доли добавленной стоимости), на уровне не менее […] процентов;

«CTC, за исключением [...]» означает требование по изменению товарной классификации на соответствующем 2-, 4-, или 6-значном уровне ГС, при этом использование в процессе производства конечного товара непроисходящих материалов, классифицируемых в указанной группе, товарной позиции или субпозиции, не допускается.

3. Требование по изменению товарной классификации применяется только в отношении непроисходящих материалов.

4. Критерии определения происхождения товаров, указанные в третьем столбце перечня, устанавливают минимальные требования к производственным операциям. Выполнение большего объема производственных операций также позволяет признать товар происходящим.

Требования по заполнению сертификата о происхождении товара (формы EAI)

Сертификат о происхождении товара должен содержать минимальный набор сведений, указание которых предусмотрено в графах 1, 2, 4, 7, 8, 9, 10, 11, 12, 13. Неиспользованное место в графах с 6 по 11 должно быть перечеркнуто для предотвращения возможности внесения любых последующих дополнений, за исключением случаев, когда сертификат о происхождении товара выдается в электронном виде без оформления оригинала на бумажном носителе.

Сертификат о происхождении товара может также содержать дополнительные сведения, в том числе информацию, позволяющую заинтересованным лицам осуществить проверку такого сертификата с использованием электронных баз данных, предусмотренных статьей 3.31 (Использование электронных баз данных) (такие как URL-адрес, QR-код и др.).

Если все товары, указанные в сертификате о происхождении товара, не могут быть поименованы на одной странице сертификата, используются дополнительные листы, предусмотренные настоящим Приложением.

Графа 1: Указываются сведения об экспортере (обязательно) и отправителе товаров (если известно): фирменное наименование, адрес и страна.

Графа 2: Указываются сведения об импортере (обязательно) и получателе товаров (если известно): фирменное наименование, адрес и страна.

Графа 3: Указываются сведения о маршруте транспортировки товаров (насколько это известно), такие как дата отправки (отгрузки), вид транспортного средства (судно, самолет и т.п.), место разгрузки (порт, аэропорт).

Графа 4: Указывается уникальный регистрационный номер сертификата, страна, выдавшая сертификат, и страна, для которой этот сертификат предназначен.

Графа 5: Указываются следующие отметки:

«**DUPLICATE OF THE CERTIFICATE OF ORIGIN NUMBER___DATE___**» в случае выдачи дубликата оригинала сертификата о происхождении товара на бумажном носителе.

«**ISSUED IN SUBSTITUTION FOR THE CERTIFICATE OF ORIGIN NUMBER___DATE___**» в случае выдачи сертификата взамен ранее

выданного сертификата о происхождении товара, содержащего случайные ошибки или упущения.

«**ISSUED ON THE BASIS OF THE CERTIFICATE(S) OF ORIGIN NUMBER(S)___DATE(S)___**» в случае выдачи сертификата при перемещении между Сторонами происходящих товаров, которые не подвергались какой-либо переработке или обработке.

«ISSUED RETROACTIVELY» или **«ISSUED RETROSPECTIVELY»** в случае выдачи сертификата после отправки товаров.

Графа 6: Указывается порядковый номер товара.

Графа 7: Указываются количество и вид упаковок.

Графа 8: Указывается подробное описание товаров, а также, если это применимо, модель и торговая марка, позволяющие идентифицировать товар. Если товары, указанные в сертификате о происхождении товара, происходят из разных Сторон, в графе подлежат указанию сведения о происхождении каждого товара (Республика Армения, Республика Беларусь, Республика Казахстан, Кыргызская Республика, Российская Федерация или Республика Индонезия).

Графа 9: Указываются критерии определения происхождения товаров для всех товаров в соответствии с обозначениями, приведенными в нижеследующей таблице:

Критерий определения происхождения товаров	Обозначение в графе 9
Товары полностью получены или произведены в Стороне в соответствии со статьей 3.4 (Полностью полученные или произведенные товары)	WO
Товары произведены в Стороне исключительно из материалов, происходящих из одной или нескольких Сторон	PE
Товары произведены в Стороне с использованием непроисходящих материалов при условии, что доля добавленной стоимости составляет не менее 40 (сорока) процентов от стоимости товара на условиях FOB	QVC
Товары произведены в Стороне с использованием непроисходящих материалов при условии, что код полученных товаров в соответствии с ГС отличается на	CTH

уровне любого из первых четырех знаков от кода таких непроисходящих материалов	
Товары произведены в Стороне с использованием непроисходящих материалов и отвечают особым критериям определения происхождения товаров, установленным в Приложении 2 (Перечень особых критериев определения происхождения товаров)	PSR

Графа 10: Указывается количество товара: вес-брутто (в килограммах) или иные единицы измерения (штуки, литры и т.п.).

Графа 11: Указываются номер(а) и дата(ы) инвойса(ов), представленного(ых) в уполномоченный орган для выдачи сертификата о происхождении товара.

В случаях если инвойсы выставлены лицом, зарегистрированным в стране, не являющейся Стороной настоящего Соглашения, в графе должна быть проставлена отметка «TCI» (Инвойс третьей страны), а также указаны следующие сведения:

a) номер(а) и дата(ы) инвойса(ов) (если такие сведения доступны на момент выдачи сертификата о происхождении товара); или

b) наименование страны, не являющиеся Стороной настоящего Соглашения, и лица, которое выставит такой инвойс.

Несмотря на вышеуказанное положение, если происхождение товаров не вызывает сомнений, отсутствие отметки «TCI» и другой информации, указание которой предусмотрено порядком заполнения настоящей графы в случаях, когда инвойсы выставлены лицом, зарегистрированным в стране, не являющейся Стороной, не должно само по себе являться основанием для отказа в предоставлении тарифных преференций.

Графа 12: Указываются данные о месте и дате выдачи сертификата о происхождении товара, проставляется оттиск печати уполномоченного органа, а также подпись должностного лица уполномоченного органа. Вместе с тем оттиск печати уполномоченного органа и подпись должностного лица уполномоченного органа могут отсутствовать в настоящей графе в случае, когда сертификат выдается в электронном виде без оформления оригинала на бумажном носителе.

Графа 13: Указывается наименование Стороны, из которой происходит товар (Республика Армения, Республика Беларусь, Республика Казахстан, Кыргызская Республика, Российская Федерация или Республика Индонезия),

место и дата заявления, проставляется подпись и оттиск печати заявителя. Вместе с тем оттиск печати и подпись заявителя могут отсутствовать в настоящей графе в случае, когда сертификат выдается в электронном виде без оформления оригинала на бумажном носителе.

В случае если в сертификате о происхождении товара указываются сведения о нескольких товарах, происходящих из разных Сторон, в графе должны быть указаны слова «See box 8».

Для целей сертификата о происхождении товара (формы EAI) слова «the EAEU-Indonesia FTA» означают Соглашение о свободной торговле между Евразийским экономическим союзом и его государствами-членами, с одной стороны, и Республикой Индонезией, с другой стороны.
